

# Air Force Center for Environmental Excellence (AFCEE) Brooks Air Force Base, Texas

Contract No. F41624-94-D-8106

Full Service Remedial Action  
Contract – Nationwide

**OHM Remediation  
Services Corp.**

 **Law Engineering and  
Environmental Services**

 **Parsons Engineering Science, Inc.**

## Supporting the Air Force Mission...

OHM and Team Subcontractors, Parsons Engineering Science, Inc. and Law Engineering and Environmental Services, in partnership with AFCEE, will provide the total capability and seamless integration of resources necessary to implement the environmental remedial actions at Air Force installations throughout the United States.

The Air Force is committed to effective environmental compliance and stewardship activities for Air Force lands, including Government Owned Contractor Operated (GOCO) facilities, to maintain access to the air, land, and water needed to maintain and improve Air Force mission capability. This commitment is accomplished by complying with Federal, state and local environmental statutes and regulations. Compliance is accomplished under many Air Force programs, several of which have been implemented to investigate conditions at past hazardous waste disposal and spill sites and select remedial actions for those sites that pose a threat to human health and welfare and to the environment.

The work to be performed under this contract can be located anywhere within the United States and its territories and possessions for which the Air Force has responsibility to participate in the cleanup of hazardous waste sites.

# AFCEE Full Service Contract –

## Who Can Use the AFCEE Nationwide Contract?

Any Air Force activities located within the 50 United States and United States territories requiring the cleanup of hazardous waste sites

## How to Access the AFCEE Nationwide Contract

- Step 1:** Identify need for environmental remedial action
- Step 2:** Initiate contact with your MAJCOM environmental point-of-contact or your AFCEE MAJCOM contact
- Step 3:** Develop Statement of Work and Government estimate for work to be accomplished
- Step 4:** Prepare a Purchase Request signed for the appropriate amount
- Step 5:** Send project package to AFCEE in coordination with your MAJCOM

All assignments under this program are directed and controlled by AFCEE subject to their selection of the contractor for each assignment.

## Remediation Services Covered Under This Contract

Sampling, Testing, Analysis and Monitoring

Site Preparation

Containment

- Capping
- Stabilization and Solidification
- Groundwater Extraction Systems
- Groundwater Containment Systems
- Innovative and Proven Containment Technologies

Removal

- Transporting
- Excavation
- Groundwater Pumping
- Free Product Removal
- Soil Vapor Vacuum Extraction
- Drum and Tank Removal
- Asbestos Removal
- Innovative and Proven Removal Technologies

Treatment

- Carbon Adsorption
- Air Stripping
- Biological Treatment
- Thermal Treatment
- Innovative and Proven Treatment Technologies

Closure

- Contamination Removal
- Facility Shutdown
- Temporary Facility Removal
- Site Restoration
- Remediation Documentation

IRPMS Data Management

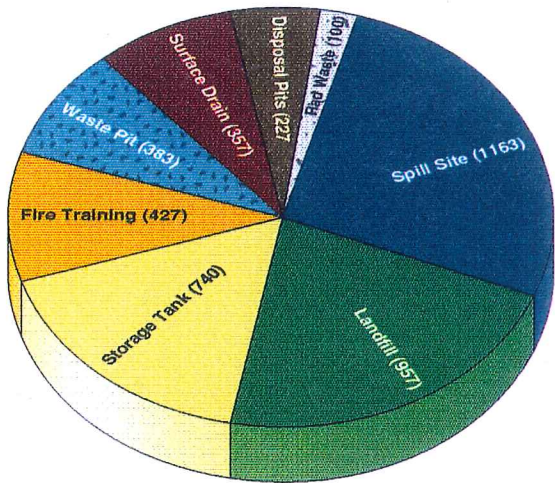

*Individual services selected will be finalized by the AFCEE Contract organization.*
