

MILITARY REMEDIATION

When the U.S. military goes to war, it relies on proven weapons systems, well-trained and equipped personnel, excellent command and control, and a solid operations plan based on a thorough understanding of the enemy. As a result, the forces are concentrated on the right targets and the mission is accomplished.

It's a tough business and you don't always get a chance to recover from mistakes.

Today, environmental remediation is a target-rich environment. The cleanup objectives are tough to meet and the threats are real. Not many can do it well, and few survive the battle of field operations.

Since 1969, OHM Remediation Services Corp. has concentrated on one main mission: providing environmental solutions through remediation. We're not here to ponder the problem with another study. Our job is to solve it with a planned approach.

The force structure:

- 28 pre-positioned nationwide operations centers for rapid deployment
- \$70 million specialty remediation equipment arsenal
- 2,000 personnel who are both well-trained and battle-hardened through experience

- Program/project management systems for command and control of costs in the field
- 16,000 completed projects for hard intelligence on the bad actors: over 10,000 chemicals

When it's time to go to war on the environmental cleanup needs at your base, call OHM . . . Proven and ready for battle.

OHM FEDERAL REMEDIATION

SUCCESSFUL PROGRAM EXPERIENCE

Successful full-service remediation on more than 1,000 delivery orders under Federal term contracts and over 100 site-specific Federal remediation projects means OHM has cleaned up more Federal sites than other environmental contractors. Current programs include:

-  USACE Rapid Response (Nationwide)
-  USACE Pre-Placed Remedial Action (EPA Regions I, III, V, VIII, IX)
-  AEC (USATHAMA) TEPS (Nationwide)
-  Wright-Patterson and Tinker AFB Remedial Actions
-  NAVFAC NEESA POL M and Pesticides Remedial Action (Nationwide)
-  USEPA ERCS Regions I, IV Emergency, IV Multi
-  U.S. Coast Guard Oil/Hazardous Contract (1st, 2nd, 5th, 7th, 8th, 9th Districts)

FEDERAL REMEDIATION PROJECTS

Map Symbols:

-  U.S. Army
-  U.S. Navy
-  U.S. Air Force
-  U.S. Coast Guard
-  U.S. Department of Energy
-  U.S. Environmental Protection Agency

Work has met the unique requirements of military installation construction, including disposal of hazardous and toxic waste, construction permits, security, coordination with base personnel, and community relations.

OHM is accustomed to working in remote locations, under strict regulatory guidelines and deadlines, and in technically and operationally complex environments.

L GOVERNMENT N CAPABILITY

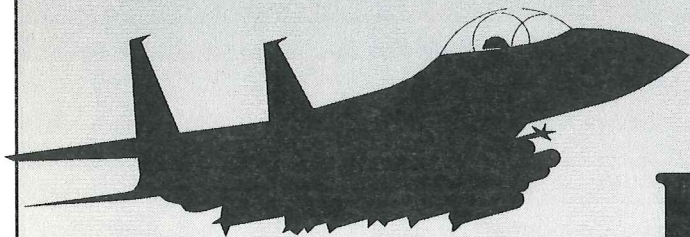

OHM IS ORGANIZED FOR FEDERAL REMEDIATION CONTRACT EXECUTION

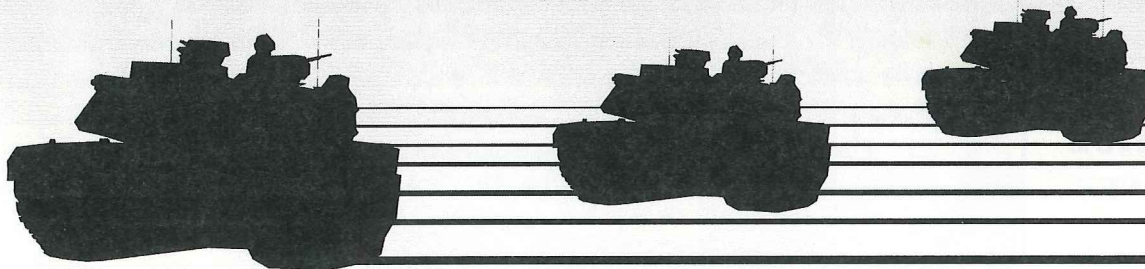

Because OHM is as serious about military remediation as you are, we're organized to make sure we manage your projects efficiently and effectively. To do this, we have:

- Proven cost accounting system and a track record for innovation in **cost control and cost management**
- Institutional **knowledge and innovation** through 500 technology applications and technical project operations support personnel
- Centralized, **cost-effective program/project management structure** compatible with Federal agency requirements
- Emphasis on **partnering** with contracting agencies and suppliers to mitigate project risks
- Demonstrated **ability to work with regulators** and manage multiple, simultaneous requirements for cleanup operations
- Government-approved **procurement system**
- Prequalified sourcing and an aggressive outreach program to meet **small/small disadvantaged business goals**
- Independent **quality system** throughout programs
- Full **turnkey remediation service** for complete project execution
- **Personnel continuity** with project managers seasoned in government-project management
- Construction-proven **management information systems** and invoicing procedures

If you're looking for a contractor with real remediation capabilities and proven experience, call OHM for the best in:
